## HISTORY AND MILESTONES

The **GKE** Group of Companies was established from its humble beginnings in 1995, when Mr Neo Kok Ching our Chairman started the business as a provider of warehousing services.

In 1988, **GKE Warehousing and Logistics Pte Ltd** was formed to provide general logistics services to its growing base of customers, complementing its existing warehousing services that it offered.

As **GKE** continued on its expansion plans, it acquired in 2000, a London Metal Exchange (LME) approved warehousing company and later renamed it **GKE Metal Logistics Pte Ltd**, providing bonded warehouse storage, handling and distribution services for all non-ferrous metals approved and traded on the LME.

To better reflect the group's business direction and future strategy, **GKE International Ltd** was incorporated in 2002 and proceeded to achieve a significant milestone for the Group when it was debuted and listed on the Singapore Exchange in 2003.

As the Company continued on its development and growth strategy, it expanded into providing International Freight Forwarding services in 2004, through its newly established company **GKE Freight Pte Ltd** and in 2005, with a focus to grow its transportation business and to move into project cargo management services, it established **GKE Express Logistics Pte Ltd**, thereby enabling the **GKE** Group to be a truly one-stop integrated logistics service provider.

With a keen focus for new and potential growth areas for development, **GKE International** in 2008, acquired Van der Horst Biodiesel, to tap on the potential growth of the Renewable energy industry, whilst still maintaining its core focus of its logistics business. The Company was subsequently renamed **Van der Horst Energy Ltd** and is the flagship holding Company for the Group and continues to be listed on the Singapore Exchange.

The Group next set its sight on taking its logistics business overseas. With the focus to grow its metal logistics activities, the Group proceeded to set up a metal warehousing and logistics company and **GKE (Shanghai) Metal Logistics Co., Ltd** was incorporated in 2009. Fuelled with further confidence in the market, the Group expanded its warehousing business at the new port area of Lingang and in 2011 acquired a 23,300 square metre piece of land, to construct and develop a new 2-storey warehouse.

In Singapore, the Group completed construction of its new 26,000 square metre warehouse cum office facility in 2010 and today our Pioneer Road facility proudly houses our Corporate office and offers additional warehouse facilities, complementing our existing warehouses in Sungei Kadut and Jalan Besut.

Through the unstinting support of our many valued Customers, the **GKE** Group has held true to its mission and vision statement and continues to strive to be THE integrated total logistics service power house of choice of our Customers.

## VISION

To become a leading integrated logistics service provider in the region, offering efficient, reliable and quality warehousing and logistics support to the local and overseas market by leveraging on technology and operational excellence.

## MISSION

Constantly seeking opportunities for steady growth and dedicating sufficient resources to ensure sustainability in all our current business segments.
