

OUR VISION

To become a leading integrated logistics service provider in the region, offering efficient, reliable and quality warehousing and logistics support to the local and overseas market by leveraging on technology and operational excellence.

OUR MISSION

To increase and improve our range of services in becoming a one-stop integrated logistics service provider in Singapore and overseas.

OUR HISTORY

The GKE group of companies started in 1995 when our founder, Mr. Neo Kok Ching started the business as a provider of warehousing services. Thereafter, over the years, the group expanded its business encompassing a wide range of supply chain logistics and fulfillment services.

In 1997, GKE achieved a major corporate milestone when our warehousing facility located at No.1 Jalan Besut was qualified as London Metal Exchange ("LME") Approved Warehouse. Over the years, GKE's business expanded and the company progressed on to become a niche player in the integrated logistics industry. In our role as an integrated service provider, we serve the needs of both the general logistics and metal warehousing industries. Today, GKE and its subsidiaries are principally engaged in the provision of integrated comprehensive logistics services which are broadly classified into:

- General Logistics
- Metal Logistics
- Container / Conventional Transportation & Project Management
- Sea & Air Freight Services

The group also operates a number warehouses in Singapore. Our warehouse management competency has also given us the opportunity to embark into helping one of our customer manage and operate their warehousing facility.

In 2003, our holding company, GKE International Limited achieved its public listed status and since then our shares have been quoted on the Singapore Exchange Securities Trading Limited.

warehousing and logistic services

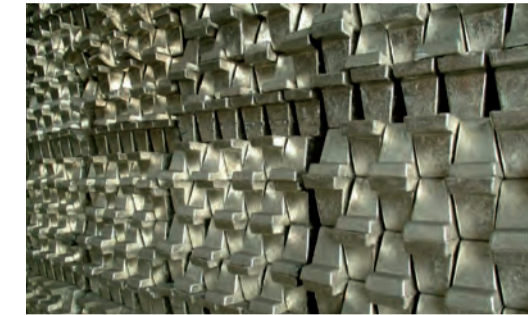

GKE Warehousing & Logistics specializes in providing general logistics services to our customers from various industries. The broad spectrum of services provided by this unit forms a part of the logistics value chain and serves the needs of our different business units.

Our general logistics services are supported by a network of warehouses located in Singapore and Tianjin. In aggregate, we manage more than 50,000 square metres of warehousing space including the premises belonging to our customers.

To better serve our customers and help them increase their operational efficiencies, we are also able to provide them with fulfillment services complementing the existing range of general logistics services offered by the GKE Group.

metal logistic services

GKE Metal Logistics is an approved London Metal Exchange ("LME") warehouse operator since 1997. Our metal logistics company is also a custodian for non-ferrous metals that are traded on the LME. These non-ferrous metals comprise zinc, aluminum, aluminum alloy, copper, lead, nickel and tin. As an officially appointed LME warehouse operator, we are able to issue LME Warrants to our customers. These warrants are issued in accordance with LME procedures by our agent in London.

LME Warrants are an integral feature of the LME trading system. A LME Warrant, backed by specific parcels of metals stored in LME Approved Warehouses, entitles the holder of such LME Warrant to take delivery of the relevant parcels of metal at a specific LME Approved Warehouse.

project logistic services

GKE Express Logistics operates our specialized project logistics business. The services provided by this business unit include the provision of heavy haulage services, marine transportation services and project management services.

Supported by an experienced team, we provide customized solutions to meet specialized project logistics needs. Our transportation teams are experienced in project cargo handling and we have the know-how to safely and smoothly move various project cargo sizes. Our well-trained customs clearance team has years of experience and knowledge in managing customs procedures and regulations.

Our experience and expertise to meet a broad range of requirements including the application for official permits, planning for integrated operations, coordination of equipment, venues and schedules and ensuring the correct specifications make GKE Express Logistics a partner of choice for many of our customers.

freight forwarding services

GKE Freight offers multi-modal seafreight and airfreight forwarding services.

We arrange FCL and weekly LCL services from Singapore to the South East Asian and Asia Pacific regions including Bangladesh, the Indian Subcontinents, Australia, Europe and USA. We also receive FCL and regular consolidated/LCL consignments from our overseas partners.

Working together with our worldwide network of agents and partners enable us to offer total logistics solutions for our customers catering to both their import and export business needs.

Our team consists of well-experienced and dedicated staff with specialized experience in both sea and air customs clearance documentation, consolidation & deconsolidation, special packing of goods and arrangement of insurance services.
